YOURS

Yours to keep
site and domain in your name

01 WHERE WE STARTED

What we built it around.

01 Precision application every flight.

Your own words. Option 1 is a field map you can fly: your drone, cut from your own photo, follows the mouse or a tap and lays its spray passes inside the field boundary, around the obstacle.

02 Spraying, spreading and mapping.

Your three services. Option 2 runs your own photo of the truck, trailer and crew across the page, with your drone breaking out above the frame.

03 Every step of the way.

From your dealer page. Option 3 lands a DJI Agras T100 on the words, with T100s ready to ship and your help from choosing a drone to flying it.

02 WHAT YOU GET

Pay for the website. Get the whole launch.

02	A launch promo A short animated video made from your own photos and words, sized for Instagram, Facebook and anywhere else you post.	\$140

06 QUESTIONS

The usual questions.

01 Will moving hurt my Google ranking?

We move it carefully. Every page address on your current site keeps working or forwards to its new page, and your titles and business details carry over, so nothing Google already knows about breaks. The new site is fast and built for phones first, which Google rewards. We don't promise rankings.

02 Is it secure?

Yes. No WordPress or plugins to keep patching, modern hosting with SSL, and every version saved, so any change can be rolled back.

03 Who owns it?

You do. The site and the domain are in your name, not ours. Hosting is included and nothing renews unless you ask. If you ever want to move it, you get every file.

04 How do I make changes?

Text or email me the change and it's live the next business day. The first 30 days are free. After that, unlimited changes come with any monthly plan, from \$250 a month, cancel anytime.

05 When do I pay?

Half (\$1,250) when you say go, the rest (\$1,250) when the site is live. You've seen the homepage before paying anything.

06 What if the brands I carry change?

Then the site changes with it. Product pages are built to swap, and I'll redo them before launch if your lineup changes.
